

SmartPropoPlus Version 3.3.6

Release Notes

This version offers major improvements for user of SmartPropoPlus on Windows Vista and minor improvements for user of SmartPropoPlus on Windows XP.

All platforms:

Anti-Jitter works for all PPM options

Vista:

1. Core audio technology uses Vista native WASAPI technology.
2. SmartPropoPlus for FMS fully functional.
3. 'Advanced' menu options fully functional.
4. Installation automatically sets SppConsole to correct compatibility mode.
