SmartPropoPlus Version 3.3.10
Release Notes

This version can be used with PPJoy or vJoy (mutual exclusive).
Among the changes:
- Installer: Enable installation if vJoy is installed.
- User Interface: Refers to 'virtual joystick' as a common name to vJoy/PPJoy
- User Interface: When connecting to a virtual joystick – it displays a pop-up message indicating which one (vJoy/PPJoy) was detected.

Limitations:
- MS Windows only.
- Windows XP or higher.
- Vista: SP1 required.
